Brac Saajan is a successful money service bureau which is required to register with HMRC. HMRC cancelled Brac's registration because it believed that there were widescale breaches of the Money Laundering Regulations.

In a 10 day hearing at the First Tier Tribunal, Abbas was able to demonstrate that the majority of the breaches HMRC contended were simply not made out. Focusing on the errors in approach and interpretation by HMRC and its officer Sarah Chapman, Abbas succeeded in reversing the decision to cancel BSEL's registration and the decisions that individual officers of Brac were not fit and proper persons and to impose a permanent prohibition on three officers from holding a management role.

- **Private Prosecutions**

Abbas has experience of prosecuting and defending in private prosecutions on behalf of both individuals and corporate entities and is a member of the Private Prosecutors' Association. ### Investigatory Powers Tribunal

## **R v F and Others, 2023**

Representing 14 Applicants before the Investigatory Powers Tribunal in a complaint relating to Unlawful interception of Data following a Pan European Operation. The operation led to Worldwide arrests of alleged Master Criminals involved in the most serious criminality. The challenge before the IPT has the potential to lead to the staying of all Criminal Trials relying on evidence obtained from the interception of data and as such is the most high-profile Litigation in the Country.

I am also instructed in the associated Criminal Trials wherein the charges include Conspiracy to Murder, Conspiracy to Possess Automatic and Semi-Automatic Weapons with Intent, and a multitude of Drugs Conspiracies at the very highest end.

Complexities: the interpretation of the Investigatory Powers Act and the concept of 'Bulk interception' wrongly being the subject of Targeted Equipment Interference Warrants; lack of candour and its impact on the validity of the Warranty granted by the Commissioner; breaches of ss. 9 and 10 of the IPA and the consequences and potential breach of Article 8 arising from the unlawful interception of Communications.

### Rape and Sexual Offences

## **R v T, 2024**

The Defendant was a Nepalese man who came to this country as a refugee without a bean. He built up a very successful vape business and eventually married a Latvian lady who had 3 children from a previous marriage. He cared for them as his own until the marriage broke down when the family moved out. Allegations were made by the children of sexual abuse over many years from a young age. The Defendant's case was that these allegations were a revenge for not supporting the family in the way he had for many years. He was acquitted of all the charges.
